Subject: Plant Washington

Dear EPD,

My name is Joey Hornbuckle and I live in Decatur. I am a Georgia citizen and I am opposed to the construction of Plant Washington. Another coal plant in Georgia will lead to dirty air, dirty water, and will adversely affect the health of everyone within 1,000 km of the plant. I do, however, support clean energy such as wind and solar that will protect the health of Georgia citizens and bring jobs to Washington County.

Thank you,
Joey Hornbuckle
